Balloon Merchandising

Merchandising matters! Customers make 70% of balloon purchasing decisions on impulse while in store. Looking to maximize sales? Inflate, inflate, inflate. See our variety of innovative inflated merchandise cross merchandising opportunities. Display space at a premium? Our spinner racks and corrugate displays are the perfect solution. Is it a store decoration – or is it for sale? We offer signage and stickers that make availability and pricing clear to consumers.

remember to use best balloon practices

- Don't let go! Attach ribbon to a single balloon then secure to a fixed object before inflating balloon to ensure retrieval if accidentally released.
- Uninflated or burst balloons can present a choking hazard. Please supervise your children at all times.
- When inflating with air always use a balloon pump to inflate your balloons. Using a pump removes the risk of bursting and injury.
- Cut the end of the balloon with scissors and dispose of in the bin. Be an environmental hero.

Balloon Weights

All balloons should be tied securely to a weight that will keep them from releasing into the air. Be sure to individually tie each balloon to the weight rather than tie them as a group. You can find information about safe balloon practices at anagramballoons.com. Please contact your Anagram sales rep for further details.
